Wireless Chime

- Indoor Doorbell Chime.
- Built-in speaker.
- Multiple ringtone options.

Series Overview

The Wireless Chime is an indoor device that chimes when your video doorbell is pressed. Through the DMSS app, the ringtones and volume can be customized to your ideal settings and it can be paired with either of the two models of Dahua video doorbells. Highly convenient, it can also be bound to multiple video doorbells at the same time, so you can place multiple Wireless Chime around your home to always hear whenever someone presses your video doorbell. Whether you're in the kitchen, office or bedroom, you'll never miss a thing if your phone is out of reach.
